Cla-Val 353GF Pressure Control Coupler is now EI 1584 3rd Edition Qualified!

Costa Mesa, California, September 25, 2015 – On September 25th, 2015, the qualification test for Cla-Val's hydrant coupler (353GF-3) was witnessed by a representative of the Energy Institute to validate the coupler's compliance with **EI 1584, 3rd edition**. The coupler successfully passed all required tests. Cla-Val's 3rd Edition Pressure Control Couplers are now available for purchase through our global distribution partner, Parker Velcon.

From the hydrant to the aircraft, Cla-Val provides top quality products for military and civilian ground fueling applications, including nozzles, pit valves, couplers and related products to help ensure optimum safety during fueling operations. We also manufacture control valves for fueling system applications including control of fuel at receiving facilities, storage tanks, fuel/water separation stations, distribution/circulation systems, and for mobile refueling trucks.

About Cla-Val

Cla-Val is a leading manufacturer of automatic control valves, serving waterworks, industrial, fire protection, aviation fueling and marine customers in more than 100 countries worldwide. Founded in 1936, our commitment to excellence and continuous improvement shows in each valve we produce and in the many new products we introduce to the marketplace each year.

Cla-Val is a global company with headquarters and a twenty-acre manufacturing/foundry complex in Costa Mesa, California, in addition to production facilities in Canada, Switzerland, France, the United Kingdom and New Zealand.
